## Dr. Mintie's Nephreticum.

DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder, and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street, Portland.

C. H. Woodward & Co., Druggists, corner First and Alder street, Portland.

Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephreticum as the best Kidney and Bladder Remedy before the public." All Druggists keep these medicines.

For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills.

For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills.

For Fever and Ague, Use Dr. Mintie's English Dandelion Pills.

Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended.

New Store.

Having recently withdrawn from partnership, I will open a store April 7th, on the east side of Virginia street, in the building formerly known as F. C. Chases, with a complete stock of millinery and fancy goods, consisting of all the latest styles, both from New York and San Francisco, thereby enabling me to sell cheaper than ever before. It is impossible for ladies purchasing goods from my store to get anything out of style, as my stock is all new to commence with. The goods need only to be seen, they will tell for themselves. Orders for goods sent by mail or express will receive prompt attention.

## A SCALDING

If a man wanted to paint a house he would be careful to put nothing in which would prevent the wood from absorbing the mixture. He would want no disturbing element in his combination anywhere, either in preparing the paint or in applying it. The chances are a hundred to one that that same man would be utterly reckless of what food he took and how he took it. He would be almost certain to mix things in his diet which instead of uniting with the juices of the stomach would ferment and turn sour and make him miserable, and when dissolved into blood feeding kyle it would be of such a character, that the glands which acts as the wood does to the paint, would not absorb it. There are different glands for different kinds of food, for instance only one very small one has an affinity for butter so that "short" pie crusts, biscuits and suchlike, find no place to go even when they happen to get into a stomach sufficiently robust to digest them. The cooking of the nineteenth century is one of the greatest crimes of the earth. Children are born with weak organs and rendered miserable, men die before their time, and women groan their whole lives through from the effect of the deadly pie crust, the well tanned steak, the fermenting hot bread and the poisonous mixture, milk and coffee which are forced upon them by custom. If everybody had killed themselves at thirty-five for the last hundred years it seems as if it would be impossible to break up the custom. Men die the most foolish, most injurious, most unnecessary and disagreeable things just because they have always seen them done and think they are good enough.

## THE NEATEST AND BEST.

The neat, stylish, and cheap awnings, which are so popular in San Francisco, would be very well adapted to the streets of Reno. A light frame securely fastened to the building, and covered with canvas of some color not inharmonious with the surroundings, would last a long time, and without costing any more, would be much more satisfactory than the cumbersome wooden frames and roofs, with heavy rolls of canvas resting on pillars at the edge of the sidewalk. A little forethought now will be a great benefit to the town. Burchard & McClelland, Gray & Isaacs, Abrahams Bros. & Co., and Davidson and Myers have the honor of being pioneers in the way of handsome awnings, and we hope they will have plenty of imitators.

## EDITORIAL NOTES.

The San Francisco stock papers are showing about as much stupidity since as they did before the election. Just say something about the stock dealing business coming to Nevada, and it has the same effect upon them that the sight of a red flag has upon a Spanish bull. Nobody of sound sense thinks the stock business is coming here, but when we jokingly mentioned it we only carried out the arguments that those same papers were preaching to their readers by the column daily. When these papers strike out so wildly at the substance of their own arguments, they show how fallacious and what utter clap-trap they are. A little more consistency might have defeated the new constitution.

The thirty or forty chickadee weeklies in California that favored the new constitution are slinging columns of leaded blarney at the *Chronicle* for its part in the fight. The *Chronicle* in turn puts them approvingly on the head, as much as to say "you, Kearney and the rest made a very good tail to the *Chronicle* kite."

The total number of men that will be called out this year to do military service in France is 796,140, thus distributed over the three branches of the service: The active army, 479,100; reserve, 144,570; territorial army, 118,000.

New York *Sun*: The one formidable competitor against Gen. Grant for the Republican nomination to the Presidency is John Sherman of Ohio. This has been apparent for some time past and it is becoming more and more clear.

"Wade Hampton opposes round dances."—*Exchange*.  
Perhaps it is pertinent in this connection to state that Wade Hampton has only one leg.

## LATEST NEWS.

The yellow fever has appeared at Port-au-Prince.  
Binghamton, New York, has just had a \$80,000 fire.  
Rear Admiral E. F. Parrott died last evening in New York.  
Twenty-two hundred bills have been introduced into congress this session.  
The Kearneyites of New York will hold a mass meeting on Thursday evening.

Andrew Manning, of Danielsville, Connecticut, killed his wife with an axe yesterday, then suicided.  
Out of love for her cousin Mrs. Charles Merriam, of Dear River, New York, killed her brother-in-law and attempted the life of her husband.

The veto was referred to the committee judiciary, and the house refused to pass the Army Appropriation bill with the political session omitted.

Both the captain and pilot of the ill-fated Great Republic have been suspended by the proper authorities—the first for six and the latter for twelve months.

The supposed to be knowing ones apprehend that the Democrats will now pass the legislative appropriation bill with great restrictions, the army bill will be allowed to fail, and congress will take a recess until December.

News is received at Chicago that on Saturday, Charles Reed, of Sidney, Nebraska, who was in jail there for murdering Henry Leomis the preceding day, was taken out by about 400 citizens and hanged to a telegraph pole in the main street of the town.

There was much heated comment in Democratic circles in Washington last evening concerning the veto, and although all concur in expressing the opinion that their party has gained a great political advantage by the President's broad acceptance of the issue presented to him, there is nevertheless great diversity of counsel in regard to the proper course to be pursued respecting the furnishing or withholding the customary appropriations.

The sentiment most largely expressed and apparently most prevalent among the Democratic representatives favors a persistent refusal to make any appropriations whatever for the army until the President yields the point in dispute, but there is ample reason for believing that this policy will soon give way to more reasonable counsels.

## Miscellaneous.

The *Chronicle* orders Kearney to the rear. Will he go—*Alta*.—Yes; to the rear of the *Chronicle*.—*Stock Report*.

The lower Connecticut river has been much visited of late by seals, and some have been seen as far up as Rocky Hill, ten miles below Hartford.

The population of Spain and the adjacent islands is 19,625,860, including 40,741 foreigners. This is an increase of 952,324 since 1880, civil war and emigration having prevented a larger increase; 94,000 Spaniards inhabit Algeria, and 62,000 other countries.

Under a new law the Massachusetts state prisons are under the control of two men and a woman, called supervisors, who are to receive no pay except for expenses. Their power is unrestricted as to regulating discipline, choosing officials and the general management of the institution.

The World on the New Constitution  
NEW YORK, May 11.—The *World* has a leading article on what it calls the "Lesson of California." The writer makes the following points: California has risen up convulsively against the monopolizing corporations. Have not we of the East heard the beginning of muttering thunders against similar corporations, which are said or supposed to escape their fair share of taxation, and which are said or are supposed to manage their affairs more for the benefit of the managers than for the good of the shareholders. Has nothing ever been heard in this part of the world about manipulating the legislature and the courts of justice? Californians have behaved in an odd way about the jury system and about the failures of courts to keep their dockets clear, but do we not in New York complain of the inconvenience of required unanimity in civil cases of twelve men, and of the impossibility of getting lawsuits decided within a reasonable time. Similar complaints have compelled the Parliament of England to make serious and extensive changes in the judicial system of that country within a few years past.

## A Continuance of Election Cases.

The Alabama delegation in congress waited on the attorney general yesterday and requested him to grant a continuance of the pending cases for violation of the election law in that state, because the farmers interested complain that their crops would be greatly damaged if they are forced to attend the courts as defendants and witnesses in the trials. The attorney general declined to grant a continuance in all cases, but said he would instruct the district attorney to try only such cases as could be attended to at this time and to notify parties in other cases not to attend court.

All work and no play makes Jack a dull boy. We approve of outdoor sports for everybody. Ladies and children, boys, girls and men. Men as much as any class need a change, and if they can be kept interested in some healthy game which takes them out into the open air and makes them exercise lungs and legs it is a splendid relief from the cares of business and the anxiety of constantly pressing details.

Impenetrable acquaintances and poor relations may be cut very short.

## MARRIED.

ISAACS—CHINE.—At the residence of the bride's parents in San Francisco, May 11th, 1879, Julius Isaacs, of Reno and Miss Mollie Crim, of San Francisco.

## PERSONALS.

D. H. Haskell, town-site agent for the C. P., is in town.

J. B. Robeson, proprietor of the Vallejo Boom factory, arrived in Reno this morning on the express.

Col. Allen, speaker pro. tem. of the last assembly, came down on the afternoon train from Carson to-day.

Oliver Lowkey, of the firm of Lowkey & Smith, lumber dealers at Virginia City, is in town.

E. F. Gerald, traveling auditor for the Central Pacific Redwood Company, came in on the delayed overland train this morning.

F. L. Vandenberg, general superintendent of the Atlantic & Pacific telegraph company, passed through on the eastern bound overland this morning.

William Lowenstein, formerly a prominent merchant of Truckee, but now of San Francisco, passed through to Virginia City this morning.

Dr. W. D. Wagar has taken his departure for Susanville. He goes on a professional trip, and will visit Long valley, Honey Lake valley, Surprise valley, and other places besides Susanville while absent.

## Sierra Valley Items.

From A. K. Lamb, who has just returned from there, a GAZETTE reporter learned that vegetation was farward and flourishing in Sierra valley until the late frost. The grasshoppers are hatching out, and are beginning to stir around some. Millions of them, not bigger than flies, are hopping about. They are not all over the valley, but are only in spots, as they have not left the hatching ground yet.

## THE CROWN PRINCE.

One Found in Pyramid District Assaying Sixteen Hundred Dollars to the Ton.

A GAZETTE reporter who chanced to be at Pyramid last Sunday, while engaged in holy meditation came upon a large pile of very handsome quartz in which his critical eye at once detected a heavy charge of the precious metals. A stone wall had been laid between two wings of the heap and a pious gentleman living near the spot, who was engaged in holy meditations, informed him that the rock to the right of the wall was selected and preserved for milling, and assayed as high as sixteen hundred dollars to the ton. He also kindly stated that the tunnel from whence this disturber of our Sunday thoughts had come was near by and might be inspected. At the entrance, happy chance, there lay a half dozen candles and a pick, which immediately became identified with our party. For 340 feet the company groped along through solid granite until an opening appeared on our right. The tunnel had cut right through

about five feet thick with a beautiful clay wall on either side, and the miners had turned at right angles and followed the east wall for 120 feet, with a drift 6 feet high and 5 feet wide. The other wall disappeared at the commencement of the drift and was seen no more. The west side of the drift showed rich ore and a fine lively quartz all the way, while the other was the wall of the ledge and was as straight as the side of a house. The clay is about three feet thick, of a heavy black texture and peeled off in great flakes when pulled by the hand. The face of the drift is in one full width, and is as handsome a lead as could be found in Ophir or Sierra Nevada. Streaks of dark colored sulphurets cross the lead at an angle of about a hundred degrees, which seems to indicate that the west wall is

very fast. Altogether the Crown Prince is the finest prospect in the camp, and the inspection made raised Pyramid district in the estimation of every one who saw it immensely. Crown Prince lies next south of the Jones and Kinkadee and down the hill several hundred feet. The company have given out the impression that a mill will be built this summer, and there certainly is no reason why the mine should not pay for one, and a good one, too, inside of a month, after it gets to running.

## Wedding Bells.

Mrs. Isaacs and his fair bride, nee Miss Mollie Crim, arrived from San Francisco this morning. Mr. Isaacs as a benedict is even more bland and obliging than in the dashing days of his single blessedness. Mr. Isaacs is happy, and in his happiness does not forget his friends. Half a dozen bottles of Heidsieck, with the "compliments of Mr. and Mrs. Julius Isaacs," heightened the editorial respect and admiration for the sacred institution of matrimony. The wine lent a more resolute hue to the daily drudgery of newspaper work, and the sparkling bubbles of its effervescent froth furnished a magic heroscope to see a bright and prosperous future before the happy couple. Here's to your health, Mr. Isaacs.

## Nevada Mail Routes.

Proposals will be received at the contract office of the postoffice department until 3 P. M. of July 10, 1879, for carrying the mails of the United States, upon the routes, and according to the schedule of arrival and departure specified by the department, in the state of Nevada, from October 1, 1879, to June 30, 1880. Lists of routes, with schedule of arrivals and departures, instructions to bidders, with forms of contracts and bonds, and all necessary information will be furnished upon application to the second assistant postmaster general.

## Cabin Broken Open.

A search warrant was issued by Judge Bowker this morning, on complaint of Gus. Kauffman, authorizing a search among the effects of one William Loomis for stolen property. Kauffman and others had a cabin at the Emeralds mine with a lot of provisions in it. For several days they have been in town, and when they returned yesterday they found that some one had entered the cabin in their absence and taken everything of value out of it. Constable Avery took the warrant and went out to seek Loomis and the lost property.

## Wool on Foot.

Thirty-three hundred sheep went through Reno to Washoe this morning. They are the property of Mr. Cutting who is taking them to Washoe to shear. When they came to the railroad track they turned into a circle and ran around and around a great revolving mass of wool for five minutes. Finally half a dozen young Americans gave the aid of their energetic efforts and the ring was broken up.

## A Mysterious Cipher.

The last rays of the setting sun were gilding the gas works as a solitary stranger was seen building a queer looking monument on the bank of the river, upon which he painted several cabalistic signs. These were supposed to mean that the 601 were to meet last night to consider the question of Spars remaining in town contrary to orders.

## A Tidal Wave of Reform.

Fidelity Lodge of Good Templars will meet at the Odd Fellows hall, over the Reno Savings Bank to-night. Although scarcely a month old, it is now one of the most flourishing lodges in the state.

The Reform Club have not decided as yet where they will fit up their rooms. They are endeavoring to induce Winchel & Cunningham to build a second story on their new stone store on Virginia street, but as yet no definite conclusion has been arrived at. At the regular meeting of the club, held last Saturday night, a resolution was unanimously adopted inviting Hon. H. H. Beck to deliver an address to the club next Saturday night.

The new encampment of I. C. of R. C., which was instituted here a few days ago, is also receiving a large number of recruits. It now numbers about seventy members. The Grand Lecturer, Dr. Con, is still in Reno, and is working hard to put the new lodge in working order before he takes his departure for Surprise valley. The Ladies' Temperance Union is also in a healthy condition, and numbers about forty members. This runs the total number of cold water drinkers in Reno up to over three hundred, and still "reform" is the cry.

## Railroad Accident.

A railroad accident occurred on the Central Pacific near the state line about 10 o'clock last night. The west bound freight train No. 6, consisting of two engines and sixteen cars, was derailed about two miles west of Verdi by running into a big bull belonging to Jack Foulks which had fallen into one of the culverts. One engine and six flat cars jumped the track. The cars were totally wrecked and the engine badly damaged. Fortunately no lives were lost and nobody severely hurt. Sam Jenkins, engineer of the second engine, jumped out of the cab window and down an embankment about ten feet high. His right wrist was considerably bruised and jammed, but beyond this he sustained no injury. The accident delayed the train several hours. The western bound overland express laid at this point till half past seven this morning. The lightning and the eastern bound overland trains came in together at half past 10 o'clock.

## District Court.

Yesterday's proceedings: Pacific Mutual Life Insurance Company vs. S. F. Hoole—cause argued and submitted to the court. Case taken under advisement.

V. Milatovich vs. Morris Ash—Order for stay of proceedings vacated.

I. B. Marshall vs. The Golden Fleece Gold and Silver Mining Company—On motion of defendants counsel defendant was given until May 30th to make statement for new trial. California Farmer's Mutual Insurance Company vs. M. Lippman et al.—Demurrer submitted and taken under advisement.

Stein, Simmons & Co. vs. Walker, sheriff.—Appeal dismissed at defendant's cost.

## Took a Walk.

Edwin Spears, the sanguinary individual of tar and feather fame, has concluded that discretion is the better part of valor after all. At any rate he shook the dust of Reno from his feet last night, and journeyed elsewhere. Under the circumstances it was about the best thing he could do, for a longer stay here would, in all probability, have resulted still more disastrously than a little warm tar and feathers. The foolish threats he made had the effect of destroying what little sympathy that people had for him, and only further exasperated those who were of the opinion that he was served right in the first place.

## A Treat.

At a meeting of the Reno Reform club held at Pavilion hall last Saturday evening the following resolutions were unanimously adopted:

Resolved, That the Hon. H. H. Beck be and is hereby invited to address the Reno Reform club and Ladies' Temperance Union at its next meeting, and that a general invitation be tendered to the public to attend.

Mr. Beck has accepted the invitation, and the address will be delivered in the district court room next Saturday evening. Mr. Beck is an earnest speaker, and there will doubtless be a large crowd out to hear him.

## Suicide of a Young Orphan.

Sunday night a young girl inmate of the State Orphan's Home, Emma N. Kelley, committed suicide in Carson by tying a sponge, saturated with chloroform, over her mouth and nose. She was about fifteen years of age, and came from Elko county. She had been an inmate of the home for several years. A badly misapprehended pathetic letter was left containing some last requests, but no allusion was made to the causes that led to the terrible act.

## Races at Carson.

The Carson races come off to-day. The horses to start are Stonewall Jackson, Barney, Lady Emma and Young Royal George, owners to drive. If they don't make them more interesting than the Spania hippodrome fraud, a man had better go off and play marbles or mumble-peg than waste his time on them.

## Raphael to the Fore.

A. Raphael, the tailor, again shines as a ring and announces to the public that he has received from below a large stock of cheap summer goods, which he will make up in the best styles and at prices that will suit anybody. See his ad. elsewhere.

## JOTTINGS.

Two men went up to work on the Cen. Emeralds yesterday.

They took away Ah Chouey's monstache at the state prison.

The painters have got to work on the Depot hotel.

The walls of the basement and first story of the Steele and Becker block are up.

A lively breeze sprung up this afternoon, and made it dusty and disagreeable generally.

The clouds looked propitious for rain last night, but they finally cleared off without the desired shower falling.

Abrahams, at the White House, will to-night place a fine eight-day clock in one of the show windows in front of his store.

The knife grinder and the book agent are abroad in Reno. Can any one wonder that tar and feathers are resorted to, and hamp talked of.

All members of Amity lodge, No. 8, of K. of P., are requested to be at their hall promptly at 1 o'clock to attend the funeral of C. A. Simmons.

The funeral of Chas. A. Simmons will take place from the M. E. church at 2 o'clock to-morrow. All friends and acquaintances are invited to attend.

## Signs of a Coming Storm.

A close lookout was kept last night for fire. The threats made by Spears, the tar and feather victim of night before last, and the attempt to fire the Ohio house have had the effect of putting people on their guard. Had any suspicious movements been observed somebody would have been severely hurt. The character of a certain gang of men infesting the town, causes a general feeling of insecurity in the community, and if matters don't take a turn for the better somebody will probably get hurt. Any man detected just now robbing or trying to set fire to a house wouldn't last long enough to strike a match. There are signs of a coming eruption. The tar bucket is only the mutter of the storm. When it comes some lungs will be pretty apt to fall short of their regular supply of oxygen. It is a bad state of affairs truly, when the law-abiding classes break the law for the sake of order; but it is nevertheless true.

## An Interesting Trial.

The justice court has been crowded with a swarm of Celestials this afternoon. They were brought out by the trial of Joe Ching and Lee Ching for assault and battery of another heathen. The defendants were first arrested on a charge of assault with intent to kill, but the complaint was dismissed by the prosecution, and one for simple assault substituted. A jury has been empaneled, and the case was on trial at the time of going to press.

## Cold Weather in Winnemucca.

The Silver State says the mercury sinks below the freezing point every night. Of course fruits of all kinds, except, perhaps, trees which are sheltered from the north winds, are killed. The mean temperature for the week ending Monday was between six and seven degrees lower than that of the corresponding week of 1878, according to the records of the signal office, and the leaves on many shade trees are killed and shriveled by frosts.

## More Base Ball.

A new club was organized last night under the name of the Mechanics Base Ball Club. The following are the members and officers: W. Nichols, president; J. Cramer, vice president; C. Bohne, secretary; S. Ross, treasurer; C. Russell, captain; M. Mullany, E. Godat, J. Foley, C. Gray, J. McDonald, J. Dillone, W. Sea, W. Jones, and D. Fuller.

## Startling If True.

[Reno "Journal" of this morning.] The Smithsonian Institution reports that the observatory of Berlin announces the discovery, by Poliss, on the 28th, of April, 1899, of a planet of the twelfth magnitude, in thirteen hours, two minutes, right ascension, ten degrees, one minute, South declination, with a daily motion north.

## Another Accident.

A woman passenger on the lighting train was standing on the platform of the rear car shortly after the train arrived, when the engine pulled up suddenly. The shock caused her to lose her balance and she tumbled headlong over the railing to the ground. She was picked up considerably bruised but not seriously injured. She will be sore, however, for some time from the effects of the fall.

## Veto Referred.

The President's veto message was referred to the judiciary committee, and a resolution adopted that the question of reconsideration to-morrow.

The house, by a vote of 101 yeas to 109 nays, refused to suspend rules and pass the army appropriation with the political section omitted, and at 4:30 adjourned.

## The Cheap Grocery Store.

The advertisement of M. Harrison, at the Cheap Grocery Store, appears in another column of this issue. Mr. H. has just received a fresh stock of groceries, fruits and vegetables, and he will put his prices down low enough for everybody.

The Arlington Avenue Nurseries

Have a reputation as broad as the State. Every tree and plant from the greenhouse to the orchard constantly on hand. Terms reasonable, prices low enough and satisfaction guaranteed. Address: URBAN & MANUS, Reno, Nev.

## Freights.

Freights via Cape Horn keep moderately active for the season, and thus far the clipper ships have done very well, notwithstanding the opposition of the railroad, and next season promises to be equally active, if not more so, as it is said that many shippers who are new under contract with the railroads will not renew them, but will forward all their freight via Cape Horn or by steamer, in case the arrangement between the Pacific Mail company and Pacific railroad is broken.

The rates of freight remain quiet and steady on account of full prices asked for ships.

## To the Good People of Reno.

Having entered the field with the balance to contend for a share of the public patronage, it would perhaps be well at the start to state our claims to the above. I am not a sufferer by the fire, so claim no sympathy on that score. I believe it's the duty of the good people to give preference to old residents, provided all things are equal, but if Brown asks fifty cents for what Smith is willing to sell for twenty-five, on the grounds that he is loser by the fire and wants to get even, the trade will naturally go to the latter. Hence I say we have no claim on the people except on what they may wish to economize. If you wish to buy your wife a fine silk dress by all means go to Emrich. If you want a suit of fine clothes go to friend Nathan's or Abrams', but if you want a "goose yoke," rat trap or jack knife go to Yankee Dodge's, where a dollar will buy a basketful. Recollect goods just as square as though sold over a marble counter. A child that can lay out the names of the articles wanted, can buy just as cheap as an expert.

P. S.—Money will be refunded on all goods that do not prove as represented.

YANKEE DODGE & Co.

## Will Open.

I will open in a few days with a full stock of fine Watches, Clocks and Jewelry. Parties desirous of purchasing will find it to their interest to wait for me, for my prices will be cheaper than ever.

S. N. DAVIDSON.

## House and Lot for Sale.

Eleven rooms, with or without furniture. Corner of West and Second streets apply on the premises. Mrs. S. S. SCOTT.

For gold and silver plating, also close plating, send it to the Pacific Electrical Works, Sacramento, Cal. All kinds of instruments repaired.

The best watch work done in town is in "Georgel's" mechanical workshop, west side Virginia street, Reno.

Lachapelle's Saloon on Centre street, has constantly on hand a stock of the finest wines, liquors and cigars.

If you want your watch repaired or cleaned go to Wm. Geogel, practical watchmaker, west side Virginia street, Reno, A. P.
